

K-LOVE is an example of a radio station that may be put off my local air if this is approved. K-LOVE is unique in this area and would be greatly missed by me and many of my friends who listen daily. K-LOVE is of great value to my community because it delivers non-commercial christian music that I can listen to without worrying about what is being said. FCC rules on what is allowed to be said on the radio have gone way beyond what I'd like to hear, with K-LOVE I don't have to worry.
